Dr. Abu-Ghazaleh Receives Head of Financial Literacy Textbooks Authoring Team

AMMAN – HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global Digital (TAG.GD), received in his office Dr. Adli Qandah, head of the Financial Literacy Textbooks Authoring Team in Jordan to discuss ways to enhance financial and economic awareness among students and youth, emphasizing the vital role of education in building a generation equipped with the skills necessary to effectively manage resources and make informed financial decisions that contribute to sustainable national development.

During the meeting, Dr. Qandah presented Dr. Abu-Ghazaleh with copies of the Financial Literacy textbooks as a gift, prepared under the supervision of the National Center for Curriculum Development, in cooperation with the Ministry of Education. These textbooks have been introduced in schools throughout the Kingdom as part of the national initiative to integrate financial literacy

concepts into the early stages of education. For his part, Dr. Abu-Ghazaleh praised the significant national efforts invested in preparing and authoring this educational series, commending Dr. Qandah and his team for their leading role in integrating this important subject into the educational system. He stated that such an initiative enhances students' understanding of production and financial literacy, while aligning with global economic trends and the evolving demands of the digital economy.

Moreover, Dr. Abu-Ghazaleh affirmed that

such initiatives represent a strategic step toward building a knowledge-based national economy, noting that financial literacy is a fundamental pillar for achieving economic sustainability and empowering individuals to actively engage and participate in economic life.

At the end of the meeting, Dr. Qandah expressed his gratitude and appreciation to Dr. Abu-Ghazaleh for his warm hospitality and motivational and inspiring remarks, praising his leading national role in supporting education, innovation, and entrepreneurship in Jordan and the Arab region.

Recognition of ‘Abu-Ghazaleh’ as Accredited Audit Office in Oman’s Local Content Certificate Program

MUSCAT - Oman Energy Association (OPAL) in cooperation with the Ministry of Energy and Minerals, and Projects, Tenders and Local Content Authority signed a service level cooperation agreement with Talal Abu-Ghazaleh & Co. International (TAG-Audit) - Certified Accountants, a member of Talal Abu-Ghazaleh Global Digital (TAG.GD), to become OPAL’s accredited audit office.

The signing ceremony took place at the Association’s headquarters in the presence of OPAL’s Chief Executive Director Mr. Mohammad Al-Naabi and TAG-Audit Executive Director in Muscat, Mr. Salah Al-Musallami.

The cooperation agreement aims at boosting the efficiency of the auditing and ensure maintaining the highest standards of transparency and quality in the procedures of granting certification, out

of the Association’s keenness and its efforts in enhancing the implementation of the Local Content Certificate Program.

It is worth mentioning that OPAL selected TAG-Audit attributed to its more than 50 years of experience in the provision of professional services, external auditing and consulting in the Sultanate of Oman, through more than 100 offices all over the world. In addition to its outstanding record in issuing local content certificates through its offices

in a number of the Arab Gulf States, including the Kingdom of Saudi Arabia, Qatar and the United Arab Emirates.

It should be noted that this cooperation aligns with the Oman 2040 Vision and the government’s efforts seeking to support sustainable economic development and boosting local added value in a mechanism that contributes to achieving sustainability goals and objectives, as well as empowering the Omani companies in various sectors.

Dr. Abu-Ghazaleh: Our Participation in the WSS Conference Reflects Our Keeness on Shaping the Future of Profession

LONDON – The International Arab Society of Certified Accountants (IASCA) has participated in the annual World Standard-Setters (WSS) Conference, organized by the International Financial Reporting Standards (IFRS) Foundation in London, with attending representatives from over 70 countries. IASCA was represented by its Executive Director, Mr. Salem Al-Ouri.

About IASCA's participation, HE Dr. Talal Abu-Ghazaleh, IASCA chairman, emphasized the important role the Conference plays in supporting the objectives of the Society and the other professional institutions in the accounting sector. He pointed out that the current global landscape is fraught with risks threatening modern economies with severe setbacks, such as the possibility of rising global recession rates, which have been exacerbated by the significant increase in interest rates intended at curbing inflationary pressures and restoring price stability.

For his part, Mr. Al-Ouri said that IASCA's participation in the Conference comes as part of its ongoing

contribution to shaping the future of the accounting profession and strengthening its role in providing the Arab market with Arab-certified accountants at the international level in accordance with the latest global standards.

During the Conference, participants discussed the activities of IFRS Foundation, taking part in interactive Q&A sessions and panel discussions addressing several key topics, including: Connecting Financial Statements with Sustainability-related Financial Disclosures, and IFRS 19 Subsidiaries without Public Accountability, which will take effect in January 2027, in addition to IFRS

for Small and Medium-sized Entities (SMEs) Accounting Standard Update.

Ms. Sue Lloyd, vice-chair of the International Sustainability Standards Board (ISSB), has also noted that the Board, following the release of IFRS S1 (General Requirements for Disclosure of Sustainability-related Financial Information) and S2 (Climate-related Disclosures), is expanding its reach and development efforts to establish new sustainability standards covering biodiversity, ecosystems, and human capital.

She went on to say that the ISSB is currently working to promote the adoption of these

standards among relevant authorities, stakeholders and professionals, designed for both regulators and preparers to facilitate a smooth transition toward standardized sustainability disclosures.

Ms. Lloyd further indicated that the ISSB has actively sought to balance the initial implementation challenges that preparers could face with investors' information

needs, especially that the benefits of implementation outweigh the cost through reducing fragmentation and enhancing transparency and comparability.

It is worth mentioning that the International Accounting Standards Board (IASB) holds the World Standard-Setters (WSS) Conference annually, offering a platform for national standard-setters to exchange expertise on

the adoption, endorsement, and implementation of International Financial Reporting Standards (IFRS). The Conference also serves as a venue for facilitating dialogue on the IASB's agenda, provides updates on standard-setting developments, and reviews stakeholder feedback on exposure drafts for upcoming standards.

Narrow Scope Amendments to the ISQMs, ISAs, and ISRE 2400 (Revised) as a Result of the Revisions to the Definitions of Listed Entity and Public Interest Entity in the IESBA Code

NEW YORK - These narrow scope amendments to the International Auditing and Assurance Standards Board (IAASB) standards revise the definition of listed entity to align with the definition in the International Ethics Standards Board for Accountants' (IESBA) Code of Ethics for Professional Accountants (including International Independence Standards). The new definition will amend the International Standards on Quality Management and International Standards on Auditing. In addition, amendments to International Standard on Review Engagement 2400 (Revised), Engagements to Review Historical Financial Statements, aims to align with the IESBA Code of Ethics regarding certain public disclosures about the application of independence requirements.

The narrow scope amendments:

- Adopt the same definition of publicly traded entity (PTE) in the ISQMs and ISAs as adopted in the IESBA Code of Ethics, while recognizing the role local

standard setters and regulators play in defining PTEs for their jurisdictions.

- Incorporate an overarching objective for differential requirements for PTEs in the ISQMs and ISAs and a framework for when it may be appropriate to apply such requirements to other entities.
- Amend the applicability of the existing requirements for audits of listed entities to apply to audits of PTEs.
- Add a new requirement in ISRE 2400 (Revised) for public disclosure in the practitioner's review report when the practitioner applied independence requirements specific to reviews of financial statements of certain entities, e.g., for public interest entities.
