Dr. Abu-Ghazaleh Communicates with the Staff of the Ramallah Office to Check on Their Well-being

In a gesture reflecting a deep sense of responsibility and paternal care, Dr. Talal Abu-Ghazaleh, Chairman of Talal Abu-Ghazaleh Global, contacted his staff members at the Group's office in Ramallah, Palestine, to check on their well-being, ensure their safety, and learn about their needs in light of the current circumstances.

During the call, His Excellency spoke with the Executive Director of the Ramallah office, Mr. Jamal Mulhim, who reassured him that all colleagues were safe and in good condition. He emphasized the team's high morale, strong determination to continue achieving success, maintaining excellent performance, and their commitment to the Group's mission and values.

He added that all employees continue to carry out their duties in a spirit of confidence, dedication, and optimism, drawing their determination from their belief in their professional and national role, as well as from the continuous support provided by the Group's Chairman and leadership.

This communication comes within the framework of the humanitarian and managerial approach adopted by His Excellency, which places people at the heart of its priorities and affirms that the real capital of the Group is its cadres spread across various countries around the world.

Exposure Draft and Comment Letters: Risk Mitigation Accounting— Proposed Amendments to IFRS 9 and IFRS 7

LONDON - The International Accounting Standards Board (IASB) published the Exposure Draft Risk Mitigation Accounting, proposing amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures. The IASB is proposing:

1. to add a risk mitigation accounting model for companies managing repricing risk on a net basis; and
2. to require a company to disclose its strategy for managing repricing risk and the effects of its risk management activities.
3. The IASB is also seeking feedback on the proposed withdrawal of IAS 39 Financial Instruments: Recognition and Measurement.
4. Supplemental reference materials have also been made available, including Basis for Conclusions, Illustrative Examples and Implementation Guidance, and Snapshot.

How to respond to the Exposure Draft?

Stakeholders can respond to the request for comment on the Exposure Draft by submitting a comment letter below.

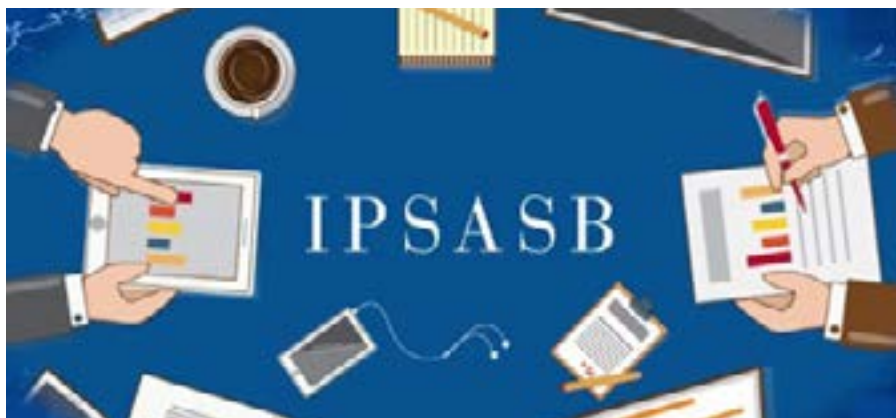

The Exposure Draft will be open for comment for 240 days, with the comment period closing on July 31, 2026.

The IASB expects companies to send their preliminary fieldwork responses separately from their comments on the Exposure Draft by July 31, 2026. Final responses should be reported no later than November 30, 2026.

IPSASB Issues First Ever Public Sector Standard for Climate-related Disclosures

NEW YORK- Governments face risks related to climate change and extreme weather events. However, there was a lack of clear public sector guidance on how to disclose them and inform accountability and decision-making.

To address this gap, the International Public Sector Accounting Standards Board (IPSASB) issued IPSASB SRS 1, Climate-related Disclosures, the first-ever public sector standard to help governments and public sector entities report climate-related risks and opportunities clearly and consistently.

IPSASB SRS 1 was developed with support from the World Bank, which works to create a world free of poverty on a livable planet through a combination of financing, knowledge, and expertise.

“Governments play a fundamental role in climate action, as their decisions can shape outcomes across the entire economy,” said IPSASB Chair Thomas Müller-Marqués Berger. “Climate-related information is therefore

essential for stronger public financial management as it provides insights into the climate-related risks and opportunities to governments’ operations. By doing so, the new disclosures enable efficient access to capital markets to mobilize the additional financing needed for climate resilience.”

“We are very happy to collaborate with IPSASB and support the development of these new sustainability reporting standards for the public sector,” said Arturo Herrera, World Bank Global Director for Governance.

“In the past, the focus of sustainability reporting has been on the private sector. With the public sector responsible for a significant share of global emissions, these new standards represent an important opportunity to make more complete climate-related

information available to the public.”

IPSASB SRS 1 is aligned with IFRS S2 to enhance the consistency and comparability of climate-related disclosures across the public and private sectors for market participants, in particular for lenders and other resource providers.

Access IPSASB SRS 1, Climate-related Disclosures. IPSASB SRS 1 applies to an entity’s general purpose financial reports for annual reporting periods beginning on or after January 1, 2028.
